The Nilokheri Scheme

THE NILOKHERI SCHEME

The scheme owes its inception to the visit of Pandit Jawaharlal Nehru, Prime Minister of India to the refugee camp at Kurukshetra in April, 1948 during which he expressed a desire in course of his public address, that he would like to see springing across the expanse of India, a thousand townships based on small scale cottage industries such as he saw at the Vocational Trainnig Centre there.

Strictly in accordance with this desire, a scheme was drawn up under the title "Muzdoor Manzil". The object of the scheme was to build a rural-cum-urban township with approximately 5000 people in the township linked with a rural population of approximately 20000 within a radius of about 5 miles of the township.

The trades, industries and crafts were intended to be so designed as to enable the people of the township to live as a complement to the people of the surrounding rural areas each drawing on the

surplus production of the other and neither exploiting the other for an existence. All activities were designed to be conducted on basis of co-operation; the capitalist economy with its logical accessories such as the parasitic law courts, etc, as also the middlemen such as the contractors and their agents in myriad forms was intended to be kept scrupulously out of the purview of the scheme. As the first unit was taken up as a pilot scheme, the selection of the population was confined almost exclusively to the refugees, all of whom were expected to earn their living by doing productive work in one form or the other thereby untilising for actual and permanent rehabilitation, the same if not less, amount as the Govt. was pouring in for mere relief and free rations.

As the Hindus belonged predominantly to "middleman" trades it was felt that an intensive training programme would be necessary to convert the middlemen and their sons into productive units. The scheme was therefore divided into two stages, the interim stage and the final stage, the interim stage being

intended to train the required number of artisans for the entire community, and the final stage being designed to build the township with all its trades, industries and crafts.

The implementation of the scheme was accordingly taken up at a site opposite to the 85th mile-post on the grand trunk road from Delhi towards Ambala. The site consists of an area of approximately 500 acres of Muslim-evacuated jungle-land where the orignal vocational training centre from Kurukshetra was shifted in the begining of August, 1948. The intervening four months have achieved the following:-

(1) The clearance of a substantial portion of jungle which was infested with snakes and wild animals of various descriptions.

(2) The building of 4 all-steel workshop sheds of 110 x 96 feet to house the various crafts, industries and workshops.

(3) The planning of the township including the actual layout of the important roads.

(4) The running of a brick kiln with fuel from the jungle, thereby ensuring self-sufficiency in the requirement of bricks for the entire construction programme.

(5) The starting of a dairy, a poultry, a piggery and a sheep breeding centre.

(6) Agriculture and Horticulture on an extensive scale consistent with the limitation of the land, utilising both human and animal labour, as also mechanical labour such as the aid of the tractor.

(7) The training of about 500 artisans as required by the community for its manifold activities.

(8) The completion of temporary construction to house the workers, the trainees, the members of the staff as also the various institutions as a prerequisite for final permanent construction.

Plans for the building of the township are now in their final shape and will be taken

up for implementation immediately on the expiry of the interim stage on the 28th February, 1949.

The activities of the centre have been divided for the time being into four distinct divisions such as follows:-

(1) The Construction Division which will be responsible for all construction including sanitation and the distribution of electric power. It is also designed to train its entire requirements of personnel such as masons, brick-moulders, overseers, mates etc.

(2) The Production Division which will be responsible for all Engineering workshop specialising in mechanised production. This division has been designed to produce all the hardware and timber requirements of the construction division, as also for the production of the electric fans and motors.

(3) The Self-Sufficiency Division, which has been designed primarily to organise co-operative industries for the artisans trained

from the centre as also to organise and supervise other local institutions such as the panchaya', the Rakshadal, the citizens' welfare activities including fine arts, women's economic and cultural activities, adult education etc.

(4) The Technical Training Division which is an expansion of the original vocational training centre, This, now, is being developed into a polytechnic designed to produce engineering, technical and vocational supervisors of a type such as will learn their trade through the use of their muscles, and will be antithesis of the white collared technicians this country has so far produced through her schools and colleges and which will usher in the long overdue movement for work with the hands instead of through the purse.

A fifth division is intended to be added to the centre in due course. This will be known as the Development and Research Division which will be designed to do original research in labour saving devices for common man and in methods such as will increase the scope of the use of our existing raw materials in rural areas in particular..

The township part of the scheme is expected according to present estimate to be completed by December, 1950 and the rural counterpart by December, 1952. The scheme when complete is expected to build a unit of 25000 people both horizontally and vertically, with approximately 300 percent increase in the standard of living and enjoying an economy which will be self sufficient in all essentials of life.

The present population of Nilokheri consists of approximately 500 trainees and about 600 workers with their families. The Centre hopes shortly to be able to take up training on a mass scale, of refugees in the various vocations and technical lines as also, instructors for other institutions of a similar nature dealing in small-scale and cottage industries.

It is the hope of the author of the scheme which is shared by his comrades engaged in this fateful experiment that the scheme at Nilokheri when complete, or perhaps very much earlier, will pave the way in which the

refugees in particular and the people of India in general can be rehabilitated in the context of "New India" within the limitations of its economic and natural resources while combining in the new style of life, all that modern science and knowledge can offer as a supplement to the ancient traditions of this land that was once "India"

OFFICE OF THE HOME MINISTER. 1774 8 AUG 1949

Signed fair copies of Final Note are placed below.

5/8

Final Note by the Home Minister.

61) *Subject.*— Allowance to Sri C.S. Seshadri, Assistant Commissioner, to East Punjab to study 'Nilokheri' Scheme'.

Sri C.S. Seshadri, Assistant Commissioner doing duty as Sub Division Officer, Davangere Sub Division was deputed in April 1949 to East Punjab for a period of six months to work in the 'Nilokheri Scheme'. This scheme is stated to be a Pilot Scheme for the permanent rehabilitation of refugees and Sri Seshadri was deputed with a view to making use of his experience in East Punjab, later on in the State in connection with the Reorganisation of the Rural Development schemes and the setting up of Multi-purpose Co-operative Societies in the State as these schemes have the same end in view as that of the 'Nilokheri Scheme'.

During the period of his deputation, he has been allowed his grade pay plus a deputation allowance of one fifth of his pay, which will be Rs.60/- per mensem.

Sri Seshadri has represented from East Punjab that the cost of living there is very high and that it is very difficult to maintain himself with a deputation allowance of Rs.60/- per mensem and has requested grant of Daily Allowance in lieu of Deputation Allowance under Appendix 'K' of the Mysore Service Regulations which will be Rs.6/- per day or Rs.180/- per month.

The Daily Allowance, if granted in this case, may constitute a precedent. Since this is a case not likely to be repeated, it is proposed to pay the officer an arbitrary sum of Rs.100/- per mensem in lieu of Deputation Allowance.

The Dewan, Chief Minister and the other Ministers agree and I solicit the gracious approval of His Highness to the proposal.

Bangalore,

Through
The Deputy Commissioner,
Chitaldrug District,

Sir,

I beg to state that recently I came across an advertisement by the Ministry of Relief and Rehabilitation, Government of India, calling for Volunteers for work connected with a scheme for the building of a rural-cum- urban township for the refugees at a village called NILOKHERI in East Punjab. The Scheme appeared to be novel and interesting and I wrote to the Hony. Techinical Adviser & Ex-Officio Secretary,Ministry of R.R. for details. He was kind enough to let me have some details and invited me to join up at least for six months and enquired about my qualifications. I replied to him that I was very much interested in the scheme and would like to work there for some time, but as I was in the Mysore Government Service, I could not go over without the permission of the Government , and would not like to lose me lien in the Civil service here.

I have received, just now, a communication from the Hon.Technical Adviser, informing me that with my qualifications I would be very useful there and that he had made a direct reference to you in this connection and requesting me to approach you for the necessary permission in the matter.

I have gone through the details of the scheme and I am deeply interested in it. It appears to be a most novel scheme and if successful , would set up a model and a solution to some of our own rural developement

problems, particularly the co-ordination of urban and rural life and economy. I would very much like to go over and work there and would be highly grateful if I can be deputed for aperiod of atleast six months, to work, study and report on the scheme. As one of the essential requisites is physical hard work, I feel that I am young enough to take it up and I have experience of the weather and conditions in nothern India during my stay of three years at Benares and my tours. I feel that the experience would be very useful for my work here later. If I am deputed for the study of the scheme, I could submit periodical reports and intend making a 16mm silent film(preferable in colours) of the scheme. Incidentally I may state that Sub-Standard(16mm) cinematography is one of my hobbies and I have acquired a fair amount of proficiency and am a member of the Ameteur Cine Society of India, Bombay. I am willing to abide by any set of conditions that may be laid down in this connection.

I learn that a booklet giving in brief the details of the 'NILOKHERI SCHEME' has been sent to you direct. As the matter is on urgency, I shall be highly obliged to you, Sir, if you can kindly obtain the orders of the Government in the matter.

Thanking you,

yours faithfully,

C.S. Seshadri

Assistant Commissioner,

Ex-officio Joint Secretary to the Govt.
of India, Ministry of Relief & Rehabilitation.

To

The Chief Secretary to the Govt. of Mysore,
Bangalore.

Sir,

The Ministry of R & R, Government of India, are building a rural cum urban township at the Muslim evacuated waste land of the village Nilokheri, District Karnal, East Punjab as a pilot scheme for the permanent rehabilitation of refugees from the West Punjab. The township which is expected to house about 10000 souls will be based on small scale and cottage industries run mostly on cooperative lines. The attached brochure titled 'The Nilokheri Scheme' may prove of interest in this connection.

2. To accomplish this gigantic task, the undersigned had, sometime back, sent out an appeal in the press inviting volunteers for honorary service in the implementation of the scheme, in response to which the undersigned came across amongst many others, an offer from one Shri C.S. Seshdari, M.A.LL.B., a Gazetted Officer of the Mysore Civil Service holding at present the post of a Revenue Sub-Division Officer, Davangere City. I have reasons to believe that with the qualifications and experiences such as Shri Seshdari possesses, he would prove exceptionally suited to our requirements here. Shri Seshdari has expressed a

genuine desire to help us for a period of six months, leave provided he is permitted by the State Government of Mysore for the period without prejudicing his lien on his permanent appointment in the Mysore Civil Service in any way whatsoever. As I have reasons to feel that Shri Seshadri's services will be of considerable advantage to us, I write this to request you kindly to consider if Shri Seshadri can be relieved either on a basis of deputation or on whatever other basis it might be possible under the rules in force in your Government, for him to be able to proceed to Nilokheri at the earliest possible date and lend us his valued help and assistance in the implementation of our programme here. As our requirements at this end are of an extremely urgent nature the undersigned should feel grateful for whatever you can do to expedite a decision on the matter.

Yours faithfully,

2) Memo No.F.C.408 dated 29th March 1949 from the Deputy Commissioner, Chitaldrug District, recommending the deputation of Sri C.S.Seshadri, Assistant Commissioner, Davangere Sub-Division, for a period of six months to study the scheme for the building of a Rural-cum-Urban township for refugees at Nilokheri in East Punjab.

ORDER THEREON No.8387-99/C..467-48-1,
Dated, Bangalore, the 16th April 1949.

The Nilokheri Scheme in East Punjab is stated to be a 'fact scheme for the permanent rehabilitation of refugees by the building of a rural-cum-urban township with about 5000 people linked with a rural population of approximately 20,000 within a radius of about 5 miles of the township, the trades, industries and crafts being so planned as to enable the people of the township to live as a people [illegible] the needs of the surrounding rural areas, each [illegible] supplementing the other and neither exploiting the other for existence. Such an experiment is worth trying in the present times. The organisation of the Rural Development [illegible] the setting up of multipurpose co-operative societies for a group of 20-30 villages in Mysore has the same end in view.

Government are, therefore, pleased to direct that Sri C.S. Seshadri, Assistant Commissioner doing duty as Sub-Division Officer, Davangere Sub-Division, be deputed to work in the Nilokheri scheme of East Punjab for a period of six months, after which period he should return to the Mysore State Service in order to place the training and experience gained by him at the disposal of the Rural Development Department.

During the period of deputation, he will be allowed his grade pay plus a deputation allowance of one-fifth of his pay and the T.A. admissible under the rules of Mysore Service Regulations.

2.Govt. Order No.8387-90/C2B 457-48-1

Subject: Deputation to work in the 'Nilokheri Scheme' East Punjab.

With reference to the above, I have the honour to state that I have been sanctioned in the above Governemnt order, a deputation allowance of only one fifth of my pay,viz Rs 60/-. and ordinary T.A. I would like to submit, Sir, that I have been put to considerable expense in shifting my family and household goods from Davangereand I have to incur heavy expediture for the maintenance of my family at Bangalore, since I am not allowed to bring in my family here for want of accomodation and severe weather conditions. Further the cost of living here, owing to the large influx of the refugees and general inflation is very high and I find it extremely difficult to meet the expenses.

I request ,Sir, that my case may be kndly recommended to the Government and kind orders sanctioning the daily allowance during my stay here at the current rates in lieu of the deputation allowance as under Appedix K. of the Mysore Service service regulations to which I am entitled to as My salary is less than Rs500/-. This would help me a great deal in meeting the extra expense incurred by my stay there.

As I am extremely hard put in meeting expenses, I shall be grateful to you, Sir, if you could kindly arrange to obtain the early orders of the Government.

Subject:- Allowance to Sri C.D.Deshmukh, Assistant Commissioner, on deputation to East Punjab to study 'Nilokheri Scheme'.

Sri C.Deshmukh, Assistant Commissioner doing duty as Sub Division Officer, Davangere Sub Division was deputed in April 1952 to East Punjab, for a period of six months to work in the 'Nilokheri Scheme'. This scheme is stated to be a pilot scheme for the permanent a rehabilitation of refugees and Sri Deshmukh was deputed with a view to making use of his experience in East Punjab, later on in the State in connection with the Reorganisation of the Rural Development schemes and the setting up of Multi-purpose Co-operative Societies in the State as these schemes have the same end in view as that of the "Nilokheri Scheme".

During the period of his deputation, he was allowed his grade pay plus a deputation allowance of one fifth of his pay, which will be Rs.60/- per mensem.

Sri Deshmukh has represented from East Punjab that the cost of living there is very high and that it is very difficult to maintain himself with a deputation allowance of Rs.60/- per mensem and has requested grant of Daily Allowance in lieu of Deputation Allowance under Appendix'K' of the Mysore Service Regulations which will be Rs.6/- per day or Rs.180/- per month.

When the papers were put up to the Financial Secretary, he has stated as follows:-

> "The Deputation allowance would be Rs.60/-. This would be too small to maintain the officer in Nilokheri. But Daily allowance, if granted in this case, may constitute a precedent. Since this is a case not likely to be repeated, I agree to the officer being paid in lieu of Deputation Allowance, an arbitrary sum of Rs.100/- per mensem".

It is, therefore, proposed to sanction to the officer an allowance of Rs.100/- per mensem, as a special case, during the period of his deputation. The Minister for Home agrees to the proposal.

This scheme is stated to be a Pilot Scheme for the permanent rehabilitation of refugees and Sri Leonardi was deputed with a view to making use of his experience in East Punjab, later on, in the State in connection with the reorganisation of the Rural Development schemes and the setting up of multi-purpose co-operative societies in the State as these schemes have the same end in view as that of the "Kilokheri Scheme".

During the period of his deputation, he has been allotted his grade pay plus a deputation allowance of one fifth of his pay. Which will be Rs.60/- per mensem.

Sri Leonardi has represented from East Punjab that the cost of living there is very high and that it is very difficult to maintain himself with a deputation allowance of Rs.60/- per mensem and has requested grant of Daily Allowance in lieu of Deputation Allowance under Appendix 'H' of the Mysore Service Regulations which will be Rs.6/- per day or Rs.180/- per month.

When the papers were put up to the Financial Secretary, he has stated as follows:-

> "The Deputation allowance would be Rs.60/-. This would be too small to maintain the officer in Kilokheri. But Daily allowance, if granted in this case, may constitute a precedent. Since this is a case not likely to be repeated, I agree to the officer being paid in lieu of Deputation Allowance, an arbitrary sum of Rs.100/- per mensem".

It is, therefore, proposed to sanction to the officer an allowance of Rs.100/- per mensem, as a special case, during the period of his deputation. The Minister for Food agrees to the proposal.
